

Deutsche Akkreditierungsstelle

Annex to the Partial Accreditation Certificate D-PL-19569-02-03 according to DIN EN ISO/IEC 17025:2018

Valid from: 09.07.2024

Date of issue: 09.07.2024

This annex is a part of the accreditation certificate D-PL-19569-02-00.

Holder of partial accreditation certificate:

**PiCA Prüfinstitut Chemische Analytik GmbH
Rudower Chaussee 29, 12489 Berlin**

with the location

**PiCA Prüfinstitut Chemische Analytik GmbH
Rudower Chaussee 29, 12489 Berlin**

The testing laboratory meets the requirements of DIN EN ISO/IEC 17025:2018 to carry out the conformity assessment activities listed in this annex. The testing laboratory meets additional legal and normative requirements, if applicable, including those in relevant sectoral schemes, provided that these are explicitly confirmed below.

The management system requirements of DIN EN ISO/IEC 17025 are written in the language relevant to the operations of testing laboratories and they conform to the principles of DIN EN ISO 9001.

Testing in the areas:

physico-chemical testing of soil

This certificate annex is only valid together with the written accreditation certificate and reflects the status as indicated by the date of issue. The current status of any given scope of accreditation can be found in the directory of accredited bodies maintained by Deutsche Akkreditierungsstelle GmbH at <https://www.dakks.de>.

Annex to the Partial Accreditation Certificate D-PL-19569-02-03

The testing laboratory is permitted to modify and redevelop test methods without prior information and approval by the DAkkS. The modification as well as further and new development of test methods is permitted by the DAkkS. The test procedures listed are exemplary.

The testing laboratory has a current list of all testing methods within the flexible accreditation area.

1 Determination of organic parameters by means of gas chromatography using mass-selective detectors (MS, MS/MS) in soil

LA-GC-002.031 2022-01	GC-MS determination of industrial chemicals in soil samples with neutral sample preparation
LA-GC-011.03 2022-04	GC-MS determination of aldehydes in soil samples
LA-GC-013.031 2023-09	Headspace GC-MS determination of volatile organic compounds (VOC) in soil (neutral)
LA-GC-301.03 2020-10	GC/MS determination of glycols in soil samples
LA-Pestizide-001.03 2023-08	Determination of pesticides in soil by GC-MS/MS and LC-MS/MS (Restriction: <i>here using GC-MS/MS</i>)

2 Determination of organic parameters by means of high performance liquid chromatography using mass-selective detectors (MS/MS) in soil

LA-LC-056.03 2023-09	LC-MS/MS determination of contaminants in soil
LA-Pestizide-001.03 2023-08	Determination of pesticides in soil using GC-MS/MS and LC-MS/MS (Restriction: <i>here using LC-MS/MS</i>)

Abbreviations used

DIN	Deutsches Institut für Normung e.V. – German institute for standardization
EN	Europäische Norm – European Standard
IEC	International Electrotechnical Commission
ISO	International Organization for Standardisation
LA-	In house method of the CAB
